Innovating from Discovery to Delivery

**Detailed Schedule:** 21st Century Perspectives
*September 30 – November 4*

All sessions are live, virtual learning experiences
September 30, 2020

4:00-4:30

*The Innovation Imperative*

Calum MacRae

Session objectives:
- Examine innovation cycles in other industries
- Discuss factors that influence innovation in biomedical industries
- Describe how technology is driving the rapid evolution of patient care

4:30-5:00

*iD2D Program Design and Vision*

Elliott Antman and Cheryl D. Vaughan

Session objectives:
- Explore the unique features of the iD2D Program
- Discuss how the program design supports the vision

5:00-5:30

Making Connections Across D2D

October 7, 2020

4:00-5:00

*Balancing Innovation & Tradition*

Joseph Loscalzo

Session objectives:
- Explore four examples of traditions along the D2D continuum
- Discuss apparent barriers to innovation in each example
- Create a strategy for innovating within the existing context

5:00-5:30

Sharing stories: Discuss traditions in your field and the barriers to innovation
October 21, 2020

4:00-5:00

Generating and Sustaining Convergence for D2D Innovation

Amy C. Edmondson

Session objectives:

- Describe hallmarks of successful convergence (outcomes, behaviors, processes)
- Compare urgent teaming and long-term teaming
- Engage in collaborative decision-making

5:00-5:30

Deepening connections: Practice joint problem-solving

October 28, 2020

4:00-5:00

Panel discussion: Challenges for Urgent Innovation

Moderator: Elliott Antman
Panelists: Sally Okun
Rochelle Wolensky
Rick Pesano
George Mensah

5:00-5:30

Structured networking: What are your new challenges and how have you met them?

November 4, 2020

4:00-5:00

Panel Discussion: De-Risking Innovation: Guardrails and Parachutes

Moderator: Sunil Kapur
Panelists: Rahul Deo
Ilsa Webeck
Bill Maisel
Michelle Mello

5:00-5:30

Structured networking: What is your perspective on the risks of innovation?
